Wireless WiFi Smart Box

This is a smart WiFi box that is perfectly compatible with models 3499F/FB and 3599F/FB, designed for inspection of sewer, pipe, air ducts, underground cable pipes, etc. It features a built-in WiFi hotspot, supporting real-time viewing, dual-screen viewing, recording with sound, and simultaneous connection to multiple smart devices, allowing easy sharing of captured images and videos. Even if the built-in screen is damaged, you can still see the live view via your smart devices.
